3 (Sem-1/CBCS) BOT HC 1

2022

## BOTANY

(Honours)

Paper: BOT-HC-1016

(Phycology and Microbiology)

Full Marks: 60

Time: Three hours

The figures in the margin indicate full marks for the questions.

- Answer the following as directed: (any 1. seveni
  - (a)/ What is viroid?
  - (b) What is endospore?
  - The virus particle which consists of nucleic core surrounded by a protein coat is called \_\_\_\_. (Fill in the blank)

Contd.

(d)	Heterotrichous type of thallus is differentiated into a system and an erect system of branches.  (Fill in the blank)
(e)	What is diatomaceous earth?
$\mathcal{C}$	What is coenobium?
(g)	How many antherozoids are produced by each antheridial cell in <i>Oedogonium</i> ?
	(i) 1
	(ii) 2
	(iii) 3
	(iv) 4
	(Choose the correct answer)
(h)	What are amylum stars?
(1)	Ectocarpus shows type of life cycle. (Fill in the blank)
<b>(1)</b>	Name one nitrogen-fixing blue-green alga.
(4)	What are heterocysts?
O.	What is 'Gram stain'?
. Wri	te briefly on the following: (any four) 2×4=8
(a)	DNA virus
(Sem-1/CBCS) BOT HC1/G 2	

(b) Rickettsias (c) Reserve food materials and pigments in red algae Trichoblast Gonidia Oogamous type of reproduction Replication in virus Structure of flagella in algae Write short notes on the following: (any three) 5×3=15 General characters of Archaebacteria Role of virus in production of vaccine Evolutionary significance of Prochloron Range of thallus structure in Chlorophyceae Cell division in Oedogonium Economic importance of Diatom Unilocular and plurilocular sporangia in Ectocarpus Cell structure of Cyanophyceae

3 (Sem-1/CBCS) BOT HC1/G 3

Contd.

1) chree

- Answer the following questions: (any three) 4.  $10 \times 3 = 30$ 
  - Describe with neat diagrams the lytic and lysogenic life cycle of bacteriophage.
  - Write in detail the role of bacteria in (b) agriculture and industry.
  - (c) Describe with the help of diagrams different types of sexual reproduction in bacteria.
  - Illustrate with labelled sketches the (d) post-fertilization changes leading to the formation of cystocarp in Polysiphonia.
  - Write in detail an account of sexual (e) reproduction in Oedogonium.
  - Write in detail the range of thallus (f) organization and cell structure of Vaucheria.
  - Give a detailed account on the life cycle (9) of Fucus.
  - What are the criteria used for classification of algae? Write in detail the classification of algae.
