ABSTRACT

The philosophy behind the value oriented is very radical issue in social prospective. There are so many views and use hues regarding this form different sections of thinking. However the philosophical craving this concept as most intrinsic as well as synthetic. By the invention of science entire human community perpetually anguished about the puerility and degradation of value concept from human consciousness. Now the stage has come to rejuvenate our age old and construct a room for value consciousness in the society. Philosophy is key concept has great concern with the society as it retorts against the sinister provocation and all round evaluation of the society. The deviation of value in all spheres of life in different ways. All logical discussion regarding is or is not, regret or wrong, important step a common gestures to sprout evitable against all kinds of hostilities and evils. The aim of value education is not confined with a literal sense, while at the same time, it shows positive gesture to dilute antagonistic attitude towards science. Modernization is a better realization of truth and use of rationalization of humans' needs where it can render services for better understanding. When a man is involved in the process of rationalization something whatever it may be necessarily follows some moral orders to have a positive consequence in social
